

CNG REFUELLING

for Vehicles with NGV1 receptacle

ELAFLEX 

The ELAFLEX CNG Dispensing System

Reliable Dispensing of High-Pressure Gas

Refuelling a CNG (Compressed Natural Gas) vehicle with our sophisticated and well-engineered CNG dispensing system is now comparable with conventional vehicle refuelling products - is just as safe, reliable and convenient. Our components enable an easy handling and set the standard in flow rates, strength and reliable performance.

We offer durable refuelling products for CNG dispensers with the highest flow rates and temperature ranges -40° C up to +65° C (-40° F to 149° F) ensuring high volumes and pressures in almost any situation.

Our N-CNG nozzle is suitable with receptacles to NGV1 or ISO 14469. It is available for rated service pressures P30 (207 bar/3000 psi) or P36 (250 bar/3600 psi).
